

Patterns and Processes

Level 3:

- Can you describe and compare the features of places?
- Can you suggest some reasons for the way things are?

Level 4:

- Can you describe human processes and physical processes?
- Can you see how these processes could change places and affect people living there?
- Do you notice any patterns in what you see?

Level 5:

- Can you describe human and physical processes?
- Can you give reasons for any of these?
- Can you see how these processes could lead to things that were different and similar about places?
- Can you see any patterns in what you see?
- Could you suggest any reasons for these?

Level 6:

- Can you describe and explain different physical and human processes?
- Can you describe how these processes create patterns?
- Can you describe how physical and human processes lead to changes in places?

Level 7:

- Can you describe how physical and human processes work together?
- Can you show how these processes create patterns?
- Can you show how these processes help to change places and the environments?

Level 8:

- Can you explain how physical and human processes work together?
- Can you explain how these processes can lead to changes in the features of places over time?
